

Submitter: Michelle Tubbs

On Behalf Of:

Committee: Joint Committee On Addiction and Community Safety Response

Measure: HB4036

The demise of our city & the senseless deaths of people in crisis MUST stop. I have witnessed a rapid decline in the livability of our city while at the same time seeing an alarming increase in overdose deaths. What we are doing is inhumane & unjust. There must be severe consequences for those who are selling drugs & viable non-negotiable avenues for treatment for those addicted and/or mentally ill. The current enabling of those on our streets is immoral in my opinion & wrong! Increased penalties for selling & possession is only the beginning, but we must immediately begin to right the absolute wrong of Measure 110.
