

Submitter: Eric Koszyk

On Behalf Of: No on recriminalization

Committee: Joint Committee On Addiction and Community Safety Response

Measure: HB4002

Please do not re-criminalize drug use. This does not help anyone, it hurts minorities more than anyone and it just means that more people will be in prison, which is already overused and hurtful. All studies show that criminalizing drug use does not help deter drug use.

Please vote no on any measure that re-criminalizes drug use.
