

Measure 110 has been a FAILURE!

Its time to repeal it and go back to the drawing table. Get your ducks in a row this time. Make sure you have the treatment centers and the workforce in place before decriminalizing hard drugs.

Recriminalize hard drugs and give those folks jail time with an offer to rehab. Stop leaving this decision up to them. Without law enforcement there can be no civilized society. Hasn't this experiment been deadly enough for you yet? We are losing our children and allowing a growing drug industry for the Mexican Cartel. How much long does this need to go on?
