

Submitter: Diane Reynolds

On Behalf Of:

Committee: Joint Committee On Addiction and Community Safety Response

Measure: SB1555

I am in total support of restoring the public using and or possession of illegal drugs, My agency has been working in Yamhill County for 20+ years to provide what is now classed as Peer Support to still struggling as well as those working on their recovery path. Since the passage of M110 and the subsequent BHRN Grant we have seen the devastation and destruction of the removal of this accountability within the current culture. Please do not repeal M110 but rather reform it. We as an agency are receiving funding from this grant, I say that for full disclosure. Our concern is truly driven by what we see the removal of any consequence has done and therefore we want to see this reform happen, and we fully support that portion and are open to the other ideas coming out of this legislative session. However that does not include the total repeal of the original.

Thanks, with best regard.
