

Submitter: Rebecca Boyle

On Behalf Of:

Committee: Joint Committee On Addiction and Community Safety Response

Measure: HB4036

It is time to admit that Measure 110, as it currently stands, is a categorical failure. Oregon should not be in the business of creating drug addicts and enabling drug addiction and yet here we are....that is exactly what has happened. HB 4036 is a step in the right direction to fixing the disastrous measure 110. I would like to add that the public should have been given much more advance notice of this extremely short deadline in order to present testimony.
