Measure: HB4036

measure 110 was a problem that never should have happened and needs to be repealed. We need to (re)criminalize drug possession and usage to incintivize rehab. No one makes the efforts to change without a reason to do so and most of us need external help (push) to seek leaving our familiar habits no matter how detrimental they are to us. Jail time and large fines can encourage life changing decisions and push people toward rehabilitation more than sending a message that it's ok to use and possess drugs (110).
