On Behalf Of:

Committee: House Committee On Judiciary

Measure: HB4097

I am a PCP from HD 50, and a voter. I support this action as many of us have made mistakes in the past and learn from them. We know that a person's record can prevent them from obtaining employment, housing, and more. It is inhumane to continue punishing individuals for their past when all other requirements have been met. Thank you, Barbara Solomon
