

Submitter: Jennifer Robbins

On Behalf Of:

Committee: Joint Committee On Addiction and Community Safety Response

Measure: HB4036

My son was given what he thought was heroin after relapsing after not being able to stay on suboxone...he died of fentanyl poisoning on January 13, 2024. I have spent over a decade treating addicts as a CADCI in the state of Oregon and now what I have passionately done as a career has stolen my son and I blame measure 110 for giving people a green light to do drugs without consequences. Shame on you Oregon.
