

Submitter: Amelia Barton

On Behalf Of:

Committee: Joint Committee On Addiction and Community Safety Response

Measure: HB4002

I strongly oppose this bill as it doesn't actually solve any of the addiction and homeless issues in Oregon.

The OHA created issue at hand with the ineffective lockdowns that shuttered businesses and tanked the Oregon economy. Don't give them money now to "study" the issue. That wastes time and taxpayer dollars.

Certainly there are solutions that can be effectively enacted more quickly based on other community experiences.

And please repeal Measure 110.

Thank you.
