

Submitter: Donna Bleiler
On Behalf Of:
Committee: Senate Committee On Judiciary
Measure: SB1587

I oppose creating a class of immunity from legal processing under the law. We have those laws for protection of both parties and providing immunity on one side tips the scale of justice. For what reason should they be allowed to commit crimes they want immunity from?

This is a protective measure to protect the unspoken abuse against children being coached to transition in our schools. Having immunity means they don't have to report everything, they don't have to follow investigative laws, they can abuse parental rights, and are not subject to privacy laws.

This bill opens a can of worms that really doesn't protect our children like it's presented.
