Committee: House Committee On Judiciary  
Measure: HB4097

Dear Committee Members:

I support HB 4097 because Oregonians who are negatively impacted by their past, even after they complete their debt to society, need a path to expungement so they are able to obtain employment, find housing, and live as law-abiding citizens. Thank you for your consideration of this humane legal remedy to avoid additionally punishing individuals who have completed all other requirements.

Sincerely,  
Kristan Knapp, concerned citizen
