Of:

Committee: House Committee On Agriculture, Land Use, Natural Resources, and  
Water

Measure: HB4060

My 91-year-old mother owns a small farm in Marion County which she has intended to keep in our family. She is being pressured by a neighboring landowner to sell the property to him so that he can increase his hazelnut acreage. HB 4060 would provide other options for farm owners like my mother besides selling out to land consolidators intent on conventional mono-crop agricultural. It would give farmers who practice diversification and regenerative farming a better chance at land access.
