

Submitter: Ritch Hanneman

On Behalf Of: My family and neighbors

Committee: Joint Committee On Addiction and Community Safety Response

Measure: HB4036

Finally a bill that actually helps change the state drug problem. This is similar to a law passed in the state of Rhode Island a few years ago.

As a family that has a family member on drugs this is the first real step in the right direction . Enabling the problem doesn't work and cost way too much money with no results to speak of. This bill has the chance of real change and is the tough love needed to help.

regards

Ritch Hanneman
