

Submitter: James Hibbs  
On Behalf Of: plso  
Committee: Senate Committee On Judiciary  
Measure: SB1575

As a licensed professional land surveyor in the State of Oregon and member of the Professional Land Surveyors of Oregon (PLSO) since 1986, I fully support this amendment as stated in SB1575. I have had no issue with defending my own work over the past 28 years arising from a claim that was directly related to my own work. I am however not willing to defend work that was not my own and I believe that SB1575 would codify this.
