

Submitter: Ritch Hanneman
On Behalf Of: My family
Committee: House Committee On Education
Measure: HB4161

Now this is a great way to get education back on the right track. By this move we will increase the quality of education for the children and help show just where and which schools are lacking. Thus helping to bring those schools up to the proper level. It is time certain groups start to look at what is best for the children and not themselves.
