

Submitter: Nick Coleman
On Behalf Of:
Committee: Senate Committee On Judiciary
Measure: SB1503

We do not need a task force for gun violence. We need to educate people about how guns operate, and how to be safe while handling them. It also seems that human life is not something that is being valued anymore, and is not as serious of a thing to take a human life. Educate people on these things instead of spending taxpayer dollars to further try and dictate our lives. The government is supposed to be protecting our rights from foreign and domestic entities. This is a domestic entity that seems to be threatening the rights of people, and I encourage opposition to this bill.
