

Submitter: Clinton Stubbs  
On Behalf Of:  
Committee: Senate Committee On Judiciary  
Measure: SB1575

I am a Licensed Surveyor with over 20 years operating a surveying firm in the Portland metro area. I am in favor of 1 Amendment to SB1575.

I've seen an increase in the use of these identity clauses in contracts. I don't really think they would hold up in court but have not seen them tested. If the indemnitee is negligent in some way, they should be held liable for damages that result.

I ask that you support the amendment and SB1575.

Regards
