

Submitter: Jackie Mills

On Behalf Of:

Committee: Senate Committee On Education

Measure: SB1583

I'm writing in support of SB 1583 that prohibits discrimination when selecting textbooks, instructional materials, program materials or library books that are used in the public schools of this state. Our students deserve to know ALL the history of our state and country, not only that from a white male perspective that has predominated until recently. This is not political correctness run amok, nor is it "woke" mentality. It is looking at history and the world around us from different points of view and allowing all of us, especially our children, to interpret those perspectives from a broad foundation of information, rather than with a limited focus. Thank you for your time and attention.
