Committee: Joint Committee On Addiction and Community Safety Response

Measure: SB1555

We DEMAND the unequivocal criminalization of hard drugs! Measure 110 hoodwinked the electorate with its deceptive facade, enabling the proliferation of drug abuse under the guise of misguided compassion. Our state government is complicit in fostering a culture of criminality by incentivizing destructive behavior and attracting unwanted individuals. Meanwhile, lives are lost with callous indifference. This madness must end now! Your fake virtual signaling is nauseating.
