

Submitter: Andrew Bergman

On Behalf Of:

Committee: Joint Committee On Addiction and Community Safety Response

Measure: HB4002

Like so many others, I am completely embarrassed by the behaviors of our state. It is no wonder people are fleeing. The only people coming here now are addicts looking to make our situation worse. It is a disgrace.

We can make this better, but this broken ideology of letting addicts choose when they are ready is so obviously not working. They are not choosing treatment because they are addicts. We need to take away the choice and/or incentivize decisions that benefit all of us.

We need these crimes to be considered Class A misdemeanors. Immediately.
