

Submitter: Andrew Bergman

On Behalf Of:

Committee: Joint Committee On Addiction and Community Safety Response

Measure: HB4036

Please support this bill. We have allowed the pendulum to swing so far that this is not even a desirable place to live anymore. It is an embarrassing place to live. We do nothing to help our addicts and we expect nothing from them. To go a step further, we enable their behaviors! Unbelievable. These crimes should be Class A misdemeanors, and that's what this bill provides. Quit enabling and start helping.
