

Submitter: David Wall
On Behalf Of: Mr Oregon is NEUTRAL on HB 4154
Committee: House Committee On Higher Education
Measure: HB4154

I am NEUTRAL on [HB 4154].

I support the evisceration of access to Lottery Funding for the State of Oregon Departments with a focus and redistribution of said funding to schools.

The Lottery was sold as a mechanism to provide for schools and Lottery Funds should be used to fully support [HB 4154].

I OPPOSE raising additional taxes and redirecting existing under-funded schools to support [HB 4154].

Personally, I do not believe Oregon will ever be a significant manufacturing hub for semiconductors.

However, Oregon has great potential to become a significant research hub if prudent investments are made.

***Oregon should not permit Chinese or Iranian nationals access to our technologies taught in universities and colleges.

David S. Wall
Mr. Oregon Concur.
