

Submitter: Echo Hobbs

On Behalf Of:

Committee: Senate Committee On Education

Measure: SB1583

I am writing to oppose SB1538 on two grounds:

1) Local school boards should retain control over what goes on in their jurisdictions. This bill takes power and choice away from local boards and gives it to the state.

2) Pornography does not belong in schools.

Other communities are tired of the tyranny of Portland voters. If Portland wants pornography in its schools, at least the rest of us should be able to keep from having it force fed to our children. This bill would take away our local control. Please vote no.
