

Submitter: STEPHANIE MORRISON
On Behalf Of:
Committee: Senate Committee On Education
Measure: SB1583

Freedom of information MUST be preserved in Oregon. The idea that our state would support Book Bans is shameful. PLEASE consider this bill to be protecting the most important resource we have. I fully support this bill and will be greatly disappointed if Oregon joins the other misguided states thinking that book bans will uphold conservative values. It is simply discrimination and control they are looking for. PLEASE stop this now by passing this bill to protect our books.
