

Submitter: Kevin Gee

On Behalf Of:

Committee: Senate Committee On Education

Measure: SB1583

Without methodically selecting the highest quality textbooks for our children to learn from, not be indoctrinated by, common sense dictates that SB 1536 will further drag our youth down into a deeper abyss of spiritual depravity. Isn't the suicide rate in Oregon already high enough? Please, reverse this horrible trend by voting 'NO' on SB 1536, and demand that all books (non-fiction and fiction alike) being placed by Oregon's adults within reach of Oregon's children are of the highest possible quality to preserve, protect, and defend America's best cultural traditions as examples of improved intellectual acumen. Thank you.
