

Submitter: Lisa Scrimenti
On Behalf Of:
Committee: Senate Committee On Education
Measure: SB1583

I oppose this measure. Parents and local schools should be the ones to decide on curriculum, not another faceless, un-elected, unanswerable bureaucratic body appointed by whatever current powers that be. The bill as written mandates that LGBTQ and other special interests' books be promoted to our children, no matter what the parents and local school districts may want.
