

Submitter: GARRY SMITH  
On Behalf Of:  
Committee: Senate Committee On Education  
Measure: SB1583

I strongly oppose this bill. Using the buzz word "discrimination" implies that it discriminates against certain races, genders or origin. Discrimination actually is necessary when teaching to our young students. Their minds are not fully developed so indoctrination through materials used in schools can give them the wrong idea that some sexual behavior is normal. It's not the case. Sexual indoctrination should not be part of the public schools. This bill opens up young minds to unusual ideas that should not be exposed to in school. Let the children alone. No sexual indoctrination should be permitted. Oppose `583.
