

Submitter: Nancy Brown

On Behalf Of:

Committee: Senate Committee On Education

Measure: SB1583

It is unconscionable that we are still dealing with this subject. Education involves teaching our children and young people to evaluate material for themselves, not limit their access to material deemed inappropriate by those who would restrict the voices and stories of those who have been discriminated against for so long. We are a multicultural society, and as such, must allow educational materials that provide an understanding of this, not hide it from our students. They are, and will be, living in this multicultural society, and need us to provide them the best tools to do so.
