

Submitter: Casey Forrester Campbell
On Behalf Of:
Committee: Senate Committee On Education
Measure: SB1583

I support sb 1583 because it is important to ensure students can learn from studying a wide breadth of various events and historical figures, even if those figures may not fit into the restrictive ideal of a small group of bigoted local school board members. We cannot let personal biases of a select few hinder the learning opportunities and growth of future generations. Standard guidelines and oversight of statewide curriculum does doesn't take local control away, but it does limit the possible abuse of local power if they try to force their discriminatory ideals on a large population of children.
