

Submitter: Jessi Presley-Grusin

On Behalf Of:

Committee: Senate Committee On Education

Measure: SB1583

I fully support barring discrimination in textbooks, instructional materials, program materials and library books that are used in the public schools of this state. This is a no-brainer. Our kids need to feel both safe and represented in school, as well as to learn acceptance for diversity and folks unlike them. This bill is critical to that.
