

Submitter: Anony Mouse
On Behalf Of: Freedom
Committee: Senate Committee On Judiciary
Measure: SB1503

This proposed "study" is just a waste of taxpayer money probably so the recipients can funnel a big chunk of the money back to the Democrats. The study will have ZERO benefit for ANYONE except those who benefit from the money laundering that will probably take place. What is the Democrat plan? To pay about 3 times what the study SHOULD cost, and get the rest back as campaign contributions? How will the Democrats pushing this crap prove to WE THE PEOPLE that the cost they are paying for it is reasonable, and that some of the money will not be returned back to Democrats? Are you going out for bids on the report?

Inconvenient facts:

During the 20th century alone, OVER 100,000,000 UNARMED people were killed by their own governments. That is OVER 114 people PER HOUR FOR THE ENTIRE CENTURY!!!! Today the America-hating communist Democrat Party ACROSS THE NATION, and in Oregon, are working feverishly to take away the ONE TOOL that might save even more lives in this century. IT IS KNOWN that the World Economic Forum, communists, leftists and Democrats, and similar scumbags want to reduce world population from the current 8 BILLION people to 500 MILLION so they can SAVE THE PLANET. They have already started a war against farmers in Europe in the name of SAVING THE PLANET. Starvation is one of the most common and effective ways to kill unarmed people. Tens of millions were killed using that method in the 20th century. If you Democrat tyrants think we will give up our guns, YOU ARE OUT OF YOUR MINDS. If any RINOs support this waste of taxpayer money, they should be primaried.

Weapons of war in civilian hands are literally the ENTIRE POINT of the 2nd Amendment!

SHALL NOT BE INFRINGED MEANS EXACTLY WHAT IT SAYS!

Statistics:

Counting both males and females, 27 nations have higher rates of suicide than the USA, and some of those have essentially NO GUNS.

Counting only males, 31 countries have higher suicide rates than the USA, including South Korea, Russia and others where guns are very rare.

Counting only females, 28 countries have higher suicide rates than the USA, including South Korea, Russia, Japan and others where guns are very rare.

Source of those statistics:

https://en.wikipedia.org/wiki/List_of_countries_by_suicide_rate

If people want to kill themselves there are many ways to do it. Maybe if Democrats would stop teaching kids nonsense in schools such as: a man can get pregnant, a child can change their gender, pornographic LGBTQ books belong in public schools, drag queens should teach small kids in public schools, everyone gets a trophy, math is racist, the founding fathers were bad people, the USA is not legitimate, males should compete in female sports, males should expose themselves to females in female locker/shower rooms, Whites are racist because they are White, Whites have White privilege, communism is better than capitalism, criminal thugs should be let out of jail, law-abiding citizens should get stiff jail time for minor offenses, cops are bad, burning-looting-murder for 6 months is OK, the world is going to end in 12 years due to CO2, kids should not be punished when they misbehave, open borders are OK, all drugs should be legal, DEI is better than meritocracy, and all manner of utter nonsense that leftists say are true - maybe if Democrats tried to focus on THE TRUTH, DECENT VALUES, ETC then maybe there would be fewer suicides.

Why are Democrats INTENTIONALLY destroying the nation? Because they want to replace the USA with a one-world communist government, take away our rights, disarm us, and kill most of us TO SAVE THE PLANET. That is why they are destroying every tradition and institution in the nation: schools, sports, marriage, the family, work via DEI and AA, the justice system, police, the military, the national culture with their open borders, and on and on.

Republicans, your Democrat colleagues are not your friends. THEY ARE THE GREATEST THREAT TO THE SURVIVAL OF the USA and our Constitution.
