

Submitter: Mary Ann Nash
On Behalf Of: Wild Fire Victims
Committee: Senate Committee On Finance and Revenue
Measure: SB1520

So many people have been waiting on legislation to correct the injustice of being taxed both federally and by states other than CA of the taxation of awards that are meant to help us rebuild our live. CA was the first state to take this step but the House recently passed a bill that included this relief on the federal level as well. I sent a letter that shows the Fire Victims Trust is giving support for these funds to not be taxed. Please consider their words and follow suit. This means so much to so many of us who are trying to put our lives back together in Oregon.

If you need further information please feel free to contact me using the email address provided.

Thank You,

Mary Ann Nash
