

Submitter: Kim Morris

On Behalf Of: My Community-McMinnville Community Task Force

Committee: Joint Committee On Addiction and Community Safety Response

Measure: HB4036

Measure 110 and Senate Bill 48 has done nothing but destroy our beautiful state. Everyday we see open drug use, drug deals and the remnants of people on drugs. The current laws are tying the hands of our law enforcement community and destroying families. Measure 110 was misleading from the beginning and made false promises of treatment, which never happened, only causing more and more damage to our state. Children now see homelessness, trash, drug use and strung out tweakers as normal these days and that is so wrong. What do you think will happen in the next few years if something isn't done now? Law makers need to swallow their pride and forget about sides and do what is best for the citizens of this state.....remember the children... they need this to stop. We need to make it a crime, offer treatment and if it is refused or abused over and over they serve the sentence originally handed down. Fair is fair, but multiple chances is enabling. But you also need to look at the crime that is happening in this state because of Senate Bill 48. Almost everything is classified as "low level" crime and so there is no fear of being caught. A slap on the wrist and you're on your way, leaving the victim to pay for the loss or pick up the pieces. I'm astonished that these laws even got passed in the first place, so let's fix that mistake now.

FIX or REPEAL Measure 110 by supporting HB 4036 now. Please Act Now!

I lead the McMinnville Community Task Force we have about 2000 followers and our focus is crime, drugs and bad behavior. We want our town back. We want our kids to go to the parks without having to watch for needles or Fentanyl foil. We have tweakers stealing from our homes and our businesses to support their habits. Save Oregon
