

Submitter: Brady Shields

On Behalf Of:

Committee: Joint Committee On Transportation

Measure: SB1572

It is important that WES and ODOT have the appropriate funds to study the demand and costs if they want to expand commuter rail service to Salem. Many people commute up and down the I-5 corridor daily, and it should be clear that only designing our intercity transportation around personal vehicles is neither sustainable nor accessible to all. Pass the bill so that WES can expand in the best way possible.
