

Submitter: Sarah Clark

On Behalf Of:

Committee: Senate Committee On Education

Measure: SB1583

I am in support of SB1583. Our educational system should not be allowed to discriminate when choosing educational materials. Such discrimination perpetuates ignorance and hatred and disconnection. Our students should benefit from a diverse array of sources, so that they can truly be educated and enriched the breadth and depth of our diverse cultural voices, including the voices of under-represented populations.
