

Submitter: Scott Collins

On Behalf Of:

Committee: Senate Committee On Natural Resources and Wildfire

Measure: SB1590

Public river waterways should be treated as public. Discriminatory legislation based on unsubstantiated data is a dangerous legal and political direction to take. Influence from home owners located on the river should be considered but not allowed to dictate laws that impact the use of the general public. Negatively impacting businesses and discouraging outdoor activities for all seems like a poor precedent to set for any community in Oregon.
