

Submitter: Ann Krimetz

On Behalf Of:

Committee: Senate Committee On Education

Measure: SB1583

I am writing in opposition to this bill. There are already substantial safeguards in place which protect students from harmful discrimination in current laws and school administrative rules. This is an unnecessary overreach into areas of curricula and literary choices that already must be pre -approved by ODE. This bill could only be viewed as an attempt to further amass State control over local jurisdiction.
