

Submitter: Robert Brown

On Behalf Of:

Committee: Senate Committee On Natural Resources and Wildfire

Measure: SB1590

I feel this bill is fair and equitable to all parties. It will give my family the opportunity to enjoy the river again while at the same time be in compliance with all boating regulations, wave management requirements and not harming the river and its residences. The factory weight without ballast is the right measurement for specific wake board / surf boats as the amount can vary due to activity. Thank you for your time and consideration on this important mater.
