

Submitter: Clifford Eiffler-Rodriguez

On Behalf Of:

Committee: Joint Committee On Transportation

Measure: SB1572

Transit and mobility freedom is my goal for Oregon.

Connecting our region with more robust public transportation options that broaden it's reach using commuters, day trippers, and lowering the barrier for casual use is one step towards that.

When you extend the ability of people to travel, you begin to build transit corridors that will serve as the springboard to a growth in accessible development that our city's are dying for.
