

Submitter: Debbie Meador

On Behalf Of:

Committee: Senate Committee On Education

Measure: SB1583

I STRONGLY OPPOSE THIS bill. Students are behind by years in some cases. YEARS. What an absolute atrocity to think of passing a bill that so completely undermines the role of local control as well as parents! Kids need real help to read, to understand numbers and math, kids need to understand a higher standard and deserve to have the respect of being taught a valid and real education that will help them live a quality life. Stop engaging in social agendas and start allocating your time to solving the literacy, grammar, writing math and science CRISIS.
