

Submitter: Hailey M
On Behalf Of: Waldport High Leadership Class
Committee: Senate Committee On Education
Measure: SB1583

As the Waldport High School Leadership Class, we are concerned that someone would put together a banned book list for us. We believe that as the Leaders of our school, it is important for us to be able to read, investigate, review, and absorb information from a variety of sources when we are studying and preparing ourselves for college life. To ban books for youth means not allowing us to have a well rounded education. Therefore we request a YES vote on Senate Bill 1583 for the sake of our students in Oregon.
