On Behalf Of: Mr Oregon SUPPORTS HB 4145
Committee: House Committee On Judiciary
Measure: HB4145

I VEHEMENTLY SUPPORT [HB 4145]!

I do not know if the proposed penalties are designed to hurt and to hurt really, really bad and to deter such abhorrent conduct, I can only hope it does.

What can society do with these people?

Personally, I would hope the law could get "medieval" with this category of the criminal element.

Good job with this piece of Legislation. You've earned your pay with this one.
