

Submitter: Deborah Buchanan

On Behalf Of:

Committee: Senate Committee On Education

Measure: SB1583

I am a retired teacher and taught in elementary schools (as a regular classroom teacher, in English as a Second Language program, and in the Talented and Gifted Program), at Oregon Museum of Science as a science educator, and also at art colleges. In other words, I taught many topics and in varying approaches. Having those experiences and outlooks enriched my understanding. I think all students deserve to have that wide world shared with them and as something they too can use in their lives. Please keep the doors and hearts open for all of our young people.  
Sincerely, Deborah Buchanan
