You people are NUTS !!! Period !!! You will make this “safety” committee and impose everything you can think of to tax us. AND, no doubt you will tax guns and ammo to death because it will fall within your power to do so.

All you democrats need to be thrown out of office much soon than later, and hopefully we will not have to suffer under your law before (the unknowing) it’s in effect and crushing us as does all your legislation.

STOP COMING UP WITH THESE IDEAS !!! They are counter productive to this state. We are ALL suffering with your homeless “plans”, your illegal (yes that word) alien “benefits”, and your giveaways to everyone who shouldn’t get anything !
