

Submitter: Deborah Swenson  
On Behalf Of:  
Committee: House Committee On Rules  
Measure: HJR201

To whom it may concern, the last thing we need right now is a state wide property tax. Not even a little bit, do we need that. What we need is for those in Salem to wake up and listen to all of the people already struggling to pay their bills. It seems that those trying to pass such a thing, don't realize that most Oregonians are overwhelmed with inflation. Many cannot eat and pay their bills too. It's difficult for many of us, making house payments now, without adding another tax on top of it. Whomever is pushing this new tax needs a reality check. It seems that the only things coming out of Salem these days are new plans for new taxes. This needs to change. Thank you for your consideration and please drop any plans for new taxes.
