

Submitter: LaNita Hafer  
On Behalf Of:  
Committee: House Committee On Rules  
Measure: HJR201

Oregonians are already paying higher taxes & many are exiting the state. Why would the legislature enact a constitutional amendment that requires more money? There has been no accounting for the lost dollars from previous engagements with Lamota, the many partnerships, to support the homeless, and no accountability for the ongoing PERS in-solvency. Why are property owners the only ones to be the recipients of "more money". Remember the gas tax went up this year and you want to continue to hurt the every day Oregonian, who travels the roads and expects to get to work via a toll road? NO!! And now a statewide property tax – NO!!
