

Submitter: William Roadhouse
On Behalf Of:
Committee: House Committee On Rules
Measure: HJR201

Oregonians are facing high inflation, high crime, and high drug abuse. All three are occurring because of bleeding-heart liberals who want to ignore the processes America has in place to handle these situations. You can't always spend yourself out of a hole. People who are coming into America without proper paperwork and drug cartels bringing drugs these people shouldn't be getting free handouts from Oregon taxpayers. 99% of unwanted pregnancies are caused by people who decided to risk getting pregnant, Oregonians shouldn't have to pay for their abortions. I just found places for the legislature to find money that don't cost Oregonians more.

I oppose HJR 201.
