

Submitter: Jeffrey Moorhead

On Behalf Of:

Committee: Senate Committee On Education

Measure: SB1583

I support Senate Bill 1583 because I want the most truthful history possible studied in our schools. History should not be bleached to protect the insecurities of those hoping to whitewash the contributions of marginalized groups, or the injustices suffered by them. No group should have the power to ignore or rewrite any part of the historical record because it makes them uncomfortable. Books should never be banned. Please vote yes on SB1583.
