Chairman
Molly Spencer
Vice Chair
Kasey Holwerda,
Secretary
Deelia Warner
Treasurer
Carolyn Wheatley
Joan Palmer

Sue Densmore
Executive Director

Jeremy Curtis
Superintendent Oregon
Caves National
Monument and Preserve

Today I am writing to urge your support and passage of SB1582. This bill includes the slate of 14 statewide projects proposed by the Cultural Resources Economic Fund (CREF). The original slate contained 16 projects and two Portland-area projects were funded in the 2023 session, leaving 14 statewide projects without support. This slate was reviewed and prioritized by the Cultural Advocacy Coalition, and reflects many important capital construction projects in large and small communities, each making a difference in their economic vitality. The unfunded projects in 2023 total \$7.8 million and represent rural, community projects in Astoria, Grants Pass, Eugene, John Day, Bend, Rainer, Medford, and Cave Junction, Oregon.

SB1582 also includes important “resiliency” funding for the arts, culture and heritage sector, a major economic driver and jobs producer. This one time investment would infuse this sector with increased resiliency. By helping our fellow citizens preserve our state's unique built, natural and cultural environments, we help celebrate and promote the places and spaces that make Oregon special and distinct. Senate Bill 1582 provides \$5.6 m for the anchor arts groups, and supports a statewide grant fund of \$14 m for program support.

The Friends of the Oregon Caves, CREF project would support the restoration of the historic integrity of the Oregon Caves Chateau. The National Park Service will fund the Life, Safety, Accessibility, Seismic and Foundation upgrades. The Oregon Caves National Monument and Preserve, and it's National Historic Landmark Lodge are the main economic driver for this remote region of Oregon. Over 120,000 visitors enjoy the cave tours and 6,000 stay at the lodge each year. With the restoration of the Chateau – this number is expected to rise to 200,000. This would bring over 75 jobs to the small community of Cave Junction with a population of 1,100.

We are pleased to be one of the prioritized CREF projects and urge support of SB1582. With \$27 million in funding, this bill will boost local economies. We urge your strong support for the creative sector through passage of SB1582.

Warm regards,

Sue Densmore
Executive Director
