Measure: HJR201

Testimony

I am doing a Testimony opposing the tax measures that are being rushed. I am a severely disabled individual with a set income. This would not help the growing tax prices that come each year. Each year property taxes go up so my mortgage goes up and I have to find a way to handle the increase. This bill that is being offered is not taking into account how this will affect the people at large. I come to you as a Individual who is hoping that this would be seen.

Thank you,

Melissa Piper
